

Fact Sheet: Marvel® *Outdoor Series*

life. luxury. marvel.

PRODUCT OVERVIEW

Marvel's *Outdoor Series* product line is an integral component of outdoor kitchens, an increasingly popular choice for homeowners who want to extend their living areas and entertainment options.

Outdoor Series Wine Cellar properly stores wine while keeping it accessible

The 54-Bottle Wine Cellar (model 6OSWCE-BS-F) provides the right balance of beauty, durability and performance, offering a wealth of features that promise years of benefit.

- A fully stainless steel exterior and special safety features accommodate outdoor environments; cellar also is UL Listed suitable for outdoor use
- **Sentry System™** refrigeration monitor operates in real time and has visual and audible alarms for over/under temperature, power failure and door-ajar conditions
- Temperature-control system includes a built-in, user-activated Sabbath mode
- Cool blue LED display shows real-time temperature of wine
- Full-extension, glide-out racks hold all types of bottles, from half bottles to high-shouldered Bordeaux bottles to tall, slim, Riesling bottles
- Vibration Neutralization System offers triple-layer protection from damaging vibration

With the above features, plus discreet controls; a continuous, stainless steel toe kick; reversible door swing; and a full-wrap, stainless steel door, the *Outdoor Series* wine cellar promises years of elegant, luxurious service.

A full line-up of Outdoor Series products for every need and occasion

With Marvel refrigeration solutions close at hand, no homeowner needs to run back inside the house for beverages, food or ice while entertaining.

- Refrigerated drawer (model 6ORDE-SS-F) includes Sentry System refrigeration monitor, extra-deep lower drawer for vertical storage of 2-liter and wine bottles, and full-extension drawer slides for easy access
- One 15" and two 24" refrigerator models accommodate most outdoor kitchen configurations, wasting no space while delivering upper-tier performance; model 6ORGD-SS-F even features a flip-up portion of its top shelf to vertically store 2-liter bottles
- Beverage and wine refrigerator (model 6OBAR-SS-F) offers two temperature zones—and appropriate space configurations—for wine and beverage storage
- Ice machine (model 3OiM-SS-F) produces and stores gourmet-quality, crystal-clear ice in its space-saving, 15-inch width
- Combination ice machine (model 6OCiM-SS-F) produces crescent-shaped ice and provides additional storage space for ice, frosted glasses and beverage storage
- Half-keg beer dispenser (model 6OHK-SS-F) holds half or quarter kegs and can be built into a 24"-wide undercounter space; comes with draft tower, hoses, CO₂ tank and regulator, drip tray and interior floor shield. When built-in, the tap can be mounted to countertop. Deluxe model (6OHK-SSX-F) includes casters, mug rail and drain kit.

All *Outdoor Series* models are built to weather the elements, with cabinets of high-performance stainless steel. They're front-vented, so they can easily be installed within an outdoor grill center (or simply add Marvel's easy-roll casters to make a portable model). These models are built to meet the tough safety standards that make them UL Listed suitable for outdoor use.
