MARVEL ADVANCES SPECIALTY REFRIGERATION WITH THE CHAMPAGNE CELLAR

RICHMOND, Ind.—Until now, wine cellars have been designed to accommodate standard-sized wine bottles, leaving no room for Champagne or other variously shaped bottles. To keep the bubbly flowing via convenient yet elegant storage, Marvel is proud to introduce the Champagne Cellar (Model 3SWCC-BS-GX), the newest addition to the popular Chateau Collection of luxury undercounter wine and beverage refrigerators.

“The popularity of our optional champagne rack inserts for wine cellars inspired us to create a luxury product geared toward the champagne connoisseur,” said Gerry Reda, senior vice president of sales for the Aga Group Companies. “The Champagne Cellar allows homeowners with extensive champagne collections to have a dedicated storage space.”

Since fluctuations of hot and cold temperatures can ruin a bottle of bubbly, the Champagne Cellar boasts precise temperature and humidity control to help ensure proper storage and caters to the discerning collector with space for 18 champagne or international wine bottles.

The Champagne Cellar features six glide-out champagne racks with stainless steel facings, recessed lighting for elegant display and a dual-paned tinted UV-resistant glass door framed in stainless steel with matching full-length handle. Additional features include Marvel’s signature ebony interior and a reversible door swing that requires only a 90-degree opening for a full-rack extension.

About Marvel

Marvel is the leading manufacturer of luxury undercounter refrigeration products, including wine cellars, beverage and wine refrigerators, refrigerated drawers, ice machines, beer dispensers and outdoor refrigerators. The Champagne Cellar is available through a national network of retailers served by local distributors. For complete information regarding the Champagne Cellar or to locate a Marvel distributor near you, visit www.lifeluxurymarvel.com or contact Marvel, an Aga Group Company, at (800) 428-6644.
