MARVEL LAUNCHES SIGNATURE SINK LINE

RICHMOND, IN—Delving deeper into whole-home entertainment, Marvel is proud to introduce its line of signature sinks and faucets for the bar and kitchen. Fashionable and beautifully functional, the sink and faucet lines are designed to complement one another—as well as the homeowner’s lifestyle.

“Building on our broad line of wine cellars, beverage refrigerators and other home entertaining products, we see the sink and faucet market as a natural progression for Marvel,” said Gerry Reda, senior vice president of sales for the Aga Group Companies.

The collection complements any décor with undermount, farmhouse and benchtop styles available in stainless steel, ceramic and synthetic. Each piece is made from quality materials to ensure premium performance. All stainless steel sinks are manufactured from 18-gauge stainless, undercoated with a high performance sound deadening material to insulate from excess noise and vibration. Fireclay sinks are crafted of durable ceramic with a high gloss finish for carefree maintenance. And each piece is backed by a limited lifetime warranty.
