Height at 0" leg adjustment:	34 1/4"
Height without legs installed:	34 1/4"
Width:	14 7/8"
Toe Kick height:	3" to 3 1/4"
Door swing at 90°:	16 1/16"
Recommended opening width:	15"
Recommended opening depth:	24"

## Additional Information

- Electrical requirements: 120 volts, 3 amps running max. 15 amp circuit required
- Locate a 3-prong grounded receptacle in one of three locations:
  - 1) On the wall in the adjacent cabinet opening
  - 2) Flush on the back wall of the refrigerator opening (add 1" to the overall depth of the unit to accommodate the thickness of the plug)
  - 3) Recessed 1" into the back wall of the refrigerator opening
- Door must be ordered as right or left hand hinge
- Shipping weight: 100 pounds
- U.L. Listed
- You need to have the following materials for proper installation:
  - Water Supply: 1/4" copper tube (subject to local codes) 20-100 PSI and shutoff valve. Allow 2" behind unit for water connection.
  - Drain: This icemaker is designed to use a gravity drain if available. If gravity drain is not available an optional drain pump can be purchased to facilitate draining to a maximum vertical height of 8'. For gravity drain a 5/8" ID rubber hose is required. Unit must drain into a 1 1/2" ID minimum stand pipe as shown on drawing below.
- Does not accept custom panels

## Accessories

Drain pump kit: 42242436 (Required if gravity drain not available)
